March - April 2013

There were 21 residential burglaries during the month of March, with 2 occurring at an active Block Watch residence. And there were 32 residential burglaries during the month of April, with 0 occurring at an active Block Watch residence.

Auto Theft Prevention Opportunity!

When you leave a car unlocked or valuable property in plain sight, you attract car prowlers. If you leave your car running unattended (either to warm it up or to grab a “quick” cup of coffee from a convenience store), you attract opportunistic car thieves. Once a car has been stolen, it can be used to commit other crimes (such as mail theft, burglary, robbery, etc.) and could even possibly be used to flee from the police. Dangerous and sometimes deadly traffic pursuits can be the end result of an auto theft. By protecting your vehicle, you could be helping prevent many other crimes from occurring.

Combined with locking your car doors, rolling up your windows, and removing all personal belongings from your vehicle, a steering wheel locking device (such as The Club®) can be an effective auto theft deterrent. An auto thief can easily see The Club®, even before they break out a window or begin prying on your door locks. The device is difficult to remove and makes it more difficult for a thief to steal your car.

The Renton Police Department is pleased to offer The Club® (steering wheel locking device) for \$12.03 (regular size) and \$13.68 (larger size). This security device normally sells for up to \$30 in retail stores. You can purchase one directly from the Crime Prevention Unit – by appointment only - at the Renton Police Department, 1055 S Grady Way, 2nd Floor. Purchase will be limited to 3 locks per person. (Checks only.)

Auto Theft Prevention Program

FAQ's Regarding The Club®

Question: What makes The Club® better than other products?

Answer: There are a number of reasons that make The Club® such a great product. Understanding motor vehicle theft and the criminals that commit this crime and why they steal cars will certainly indicate why The Club® performs so well. The Club's® durable construction and tamper-resistant locks deters thieves the moment they see it. Most auto thieves are looking for a quick and easy target to steal. The Club® deters them and greatly reduces the opportunity to steal the vehicle.

Question: What makes The Club® effective?

Answer: There are many factors that make The Club® a vehicle owners most effective first line of defense against theft. Primarily, it is the high visibility The Club® provides. Thieves notice it immediately and the difficulty this presents to them is 1) time, 2) additional hardware and tools, 3) and the risk of being caught or identified. The Club® is very simple to use and installs in seconds. The Club® is noiseless protection but sends an extremely loud visual message of security. The Club® is an affordable tool of protection.

Question: Were there any tests conducted? If so, what were the results?

Answer: The Club® has been tested by independent worldwide laboratories and by numerous Law Enforcement Agencies. The results are simply that The Club® is an effective mechanical steering wheel lock that deters vehicle theft.

The most impressive test The Club® continues to successfully pass is the test of time. Since it originated in 1987, The Club® was an instant success. The Club® offers a practical solution to the No. 1 property crime in America – auto theft. The Club® has endured any negative publicity over the years, such as cutting the wheel, the use of Freon, and successfully maintains its effective value.

Question: What's all this talk about cutting steering wheel locks?

Answer: The issue of cutting the steering wheel has been really blown out of proportion. When you consider the amount of vehicles stolen in the United States (over 1 million per year!) and the amount of recovered stolen vehicles (approximately 70%), it is unusual to find that the steering wheel had been cut in a thief's attempt to steal the vehicle. Most auto thieves do not possess the skills or carry the necessary hardware to defeat The Club®.

The Club® is the only vehicle anti-theft device that is endorsed by the National Fraternal Order of Police which has a membership of nearly 300,000 Law Enforcement Officers.
